2026-

Harris School of Public Policy, University of Chicago

Master of Public Policy

Joint Japan/World Bank Graduate Scholar; DRW & Irving B Harris Fellow

Gokhale Institute of Politics and Economics

Master of Arts, Economics

Banasthali University

Bachelor of Arts, Economics, Mathematics & Applied Statistics

PROFESSIONAL EXPERIENCE

London School of Economics and Political Science ([Economics of Environment and Energy Program](#), [STICERD](#) & [IGC](#))

Aug 2024 - Present

Research and Policy Director, EEE and Sustainability Advisor, IGC

Economics of Environment and Energy (EEE) at STICERD: Working closely with Robin Burgess, Clare Balboni and other faculty to shape and deliver EEE's research and policy strategy. Leading the development of research partnerships and new workstreams on sustainable growth, climate and energy, overseeing policy engagement and communications, supporting PhD and student initiatives, and driving fundraising and institutional partnerships to expand EEE's global research and policy impact.

International Growth Centre (IGC): Supporting IGC's strategic development and research agenda on sustainable growth across its global network. Leading the establishment of new country programmes, including India and Indonesia, strengthening partnerships with governments, donors and research institutions, supporting programme and research development, and contributing to fundraising, organisational strategy, and the integration of climate and sustainability priorities across IGC's country programmes and research portfolio.

[Energy Policy Institute at the University of Chicago \(EPIC India\)](#)

Jun 2021 – Aug 2024

Director – Policy, Strategy and Special Initiatives & Interim Operations Director
(Past: Associate Director of Research and Strategic Partnerships)

- **Research Leadership:** Built and managed research and policy projects within energy, environment and climate change domains, while effectively representing EPIC's work externally. Built several strategic partnerships focused on fundraising, outreach, capacity building of policymakers.
 - Oversaw coordination and management of wide-ranging research projects across 11 states and 4 verticals – air pollution and human health, energy access and security, climate change and adaption, pricing and market mechanisms.
 - Represented EPIC India, and the University of Chicago Trust externally, both nationally and internationally, in meetings, seminar & conferences, national and regional government consultations and trainings. Stakeholders included the senior management at the University of Chicago, several prominent academicians, high-ranking government officials, international donors (USAID, OAK Foundation, Clean Air Fund, MacArthur Foundation etc.), civil society organizations.
 - Liaised with Ministry of Power and Bureau of Energy Efficiency in India to inform the National Carbon Market Policy and partnered with several state pollution control boards to develop PM2.5 and SOx markets in India
- **Leadership and Institute Management:** Successfully managed the institute in the absence of the executive director for ~15 months, demonstrating leadership and strategic competence. Handled a wide range of responsibilities, including strategic planning and execution, research and program management, capacity building, fundraising, budget management, donor relations, student engagement initiatives, and staff supervision in various functions (research, policy, and operations).

[Climate Vault](#)

Feb 2020 – Jun 2021

Head of Research

Collaborated with cross-functional teams in Business Development, Donor Management, and Product Development at an early-stage non-profit start-up to create and manage products and solutions supporting individuals and organizations in achieving net-zero goals. Additionally, I advised **Climate Vault** on carbon removal technologies. Key achievements include designing and implementing a carbon emissions calculator, devising a strategy for decarbonizing financial investment portfolios, and building a model to predict carbon emissions (scope 1 and scope 2) for over 11,000 countries worldwide.

[JPAL South Asia \(Poverty Action Lab\)](#)

Oct 2014 – Sep 2019

Research Manager

Led and managed multiple experimental research projects, overseeing the entire lifecycle from design and sample selection to data collection and adherence to timelines and budgets. Notably, I led the team that conceptualized and launched the Emissions Trading Scheme for Particulate Matter in Surat, Gujarat. I mentored a team of managers and associates and maintained effective communication with academicians, senior government officials, policymakers, donors, and partners. Additionally, I contributed to various J-PAL projects, organized knowledge-sharing workshops, and provided management support to prominent energy and environment economists, including **Dr. Michael Greenstone** (UChicago), **Dr. Rohini Pande** (Yale), and **Dr. Robin Burgess** (LSE).

Senior Research Associate (Energy and Environment)

Served as a technical consultant to the Principal Secretary, Energy, Bihar, designing and implementing policy interventions aimed at reducing revenue losses to ensure affordable and reliable energy access in rural Bihar. I also designed the load-shedding protocol for the state, optimizing energy cuts, ensuring communication and compliance with the schedule, and reducing bias in the system. Additionally, I provided extensive research assistance on five J-PAL Energy and Environment projects in Bihar, covering literature review, field planning, survey design, research design, data collection, and data analysis.

Research Associate (Health and Governance)

Contributed to the research project led by **Dr. Esther Duflo** and **Dr. Abhijeet Banerjee** (2019 Nobel Laureates in Economics) on the impact of asymmetric information and energy efficiency of durable goods, as well as factors influencing the adoption of iron-fortified salts among the poor in rural Bihar. I supervised large-scale surveys of over 40,000 individuals and businesses, recruiting and training more than 200 surveyors.

INTERNSHIPS & PART-TIME WORK EXPERIENCE

Advisor - Research, [Climate Vault](#) (Part-Time)

Jun 2021 – Apr 2022

Stayed with climate vault in advisory capacity to provide strategic and decision-making support to the research vertical. Advised donor engagement teams and the team on communicating impact.

Policy Research Consultant, [Institute of Carbon Removal Law & Policy](#)

Jan 2021 – Mar 2021

Working with the core team of EverGrain Ingredients to help them refine their strategic pillars and finalize their partnership strategy

Impact Investing Consultant, [Coastal Enterprises Inc](#)

Sep 2020 – Dec 2020

Worked with CEI Inc, a Community Development Financial Institution, to reorganize their impact metrics to tell a more effective impact story
